

Dornach, 24 November 2009

ATMOVA at the Home and Energy Efficiency Expo in Berne

From 26 - 29 November ATMOVA will be on show at the Expo for construction and energy efficiency specialists as well as private homeowners and builders.

At the leading trade show for renewable energy and energy efficient construction, interested visitors and trade specialists can gain a comprehensive overview of the system and see ATMOVA first hand.

ATMOVA is located in hall 220, booth 220.B05.

Founded in 2007 as a subsidiary of Swissmetal, Swissmetal Design Solutions AG develops and distributes a novel form of energy extraction. ATMOVA offers architecturally appealing roof and façade elements in an adjustable total system which integrates in already existing roof and facade constructions in a seamless fashion. In this way, ATMOVA combines aesthetics and modern heat extraction as a renewable energy. The positive physical characteristics of a special copper alloy make it possible for ATMOVA system to make energy from the environment available and to use a heat pump for heating and hot water for buildings (for additional information on ATMOVA, please see www.atmova.ch).

Swissmetal produces and sells worldwide high-quality special products made of copper and copper alloys which are mainly used in the electronics, telecommunications, air travel, petroleum, automobile, stationery and watch/clock industries and in the architectural sector. In financial year 2008, Swissmetal achieved turnover of CHF 324.9 million. As at end of July 2009, the company had 643 full time-employees. Swissmetal, with its registered office in Dornach (Switzerland) is quoted on the SIX Swiss Exchange as Swissmetal Holding Ltd.
